REFRACTORY INDUSTRY OUTLOOK

- India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next five years
- India growth is expected to be refractory intensive, driven by end markets of construction, autos, machinery consumer goods and energy
- Government has published target to increase domestic steel production to 300 Mtpa by 2030, double the current level of 150 Mtpa
- Green steel production technologies to be emphasized, to reduce CO2 emissions
- Import substitution represents further growth potential for domestic Indian refractory producers

India real GDP growth forecast 2022-24

India refractory demand forecast 2023-28

REFRACTORY APPLICATIONS

| Customer industries | Main application | Lifetime and costs | Refractory characteristics |
|--|--|--|---|
| Steel 70% of global market | Basic oxygen furnace, Electric arc furnace, ladles, flow control  | <ul style="list-style-type: none"> 20 minutes to 2 months 3% of customers' costs | <ul style="list-style-type: none"> Part of customers' operational expenditure Systems and solutions for complete refractory management Demand correlated to output Part of customers' capital expenditure Longer replacement cycles based on project driven demand Complete lining concepts including refractory engineering Wide areas of application |
| Cement/Lime 10% of global market | Rotary kiln  | <ul style="list-style-type: none"> Annually 0.5% of customers' costs | |
| Non-ferrous metals 7% of global market | Copper flash smelter  | <ul style="list-style-type: none"> 1 to 10 years 0.2% of customers' costs | |
| Glass 7% of global market | Glass furnace  | <ul style="list-style-type: none"> Up to 10 years 1% of customers' costs | |
| Energy, Environmental, Chemicals 6% of global market | Secondary reformer  | <ul style="list-style-type: none"> 5 to 10 years 1.5% of customers' costs | |

ABOUT THE COMPANY

CMJ Refractories & Minerals Pvt. Ltd. stands as a trusted partner for core industries across the globe. Under the visionary leadership of Mr. Anup Kumar Jain, we have grown from a refractory product supplier into a full-spectrum solution provider, serving the critical needs of industries.

Beyond products, we offer comprehensive project execution and technical services including mechanical and electrical installations, refractory applications, hot and cold insulation, structural fabrication, civil construction, and turnkey plant setups. Our footprint spans across India and extends to global markets including GCC and African countries.

5

A House of Refractory Solutions

OUR MISSION & VISION

Mission

Delivering reliable refractory products and services that drive efficiency, safety, and sustainability in core industries.

Vision

6

To be a global leader in refractory solutions, known for integrity, precision, and building resilient infrastructures.

CORE VALUES

Quality First

Customer Commitment

Integrity

Innovation & Continuous Improvement

Teamwork & Excellence

Safety & Sustainability

INDUSTRIES WE SERVE

GLASS

CEMENT

STEEL

SUGAR

CERAMIC

OIL & GAS

ENERGY

FERTILIZER

PETROCHEMICAL

ALUMINIUM

OUR PRODUCTS (1/3)

NORMAL MEDIUM & HIGH HEAT DUTY BRICKS

Reliable firebricks designed to withstand a range of medium to high-temperature industrial applications.

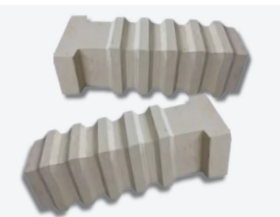

SUPER HEAT DUTY BRICKS

Engineered for superior thermal stability in extremely high-temperature environments.

HIGH ALUMINA ROOF BRICKS

Specialized high alumina bricks designed for durable roof construction in kilns and furnaces.

ANCHOR BRICKS

Precision-formed bricks used to anchor refractory linings in high-heat processing units.

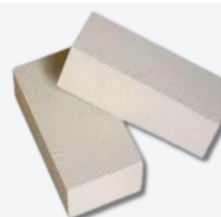

REFRACTORY BRICKS

General-purpose bricks offering excellent thermal resistance and structural strength.

ACID RESISTANCE BRICKS

Chemically stable bricks ideal for use in corrosive environments like chemical plants and tanks.

INSULATION BRICKS

Lightweight bricks with low thermal conductivity for energy-efficient insulation.

PRECAST CASTABLE BRICKS

Pre-shaped castables that simplify installation while maintaining strength and heat resistance.

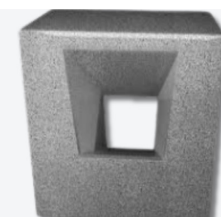

SPECIAL INSULATION BRICKS

Customized insulation bricks designed for critical temperature management and energy savings.

HIGH ALUMINA BLOCKS

Heavy-duty blocks made with high alumina content for enhanced durability and heat tolerance.

MUFFLE BLOCKS

Used in muffles and combustion chambers for controlled heating and insulation.

LADLE LINING HIGH ALUMINA

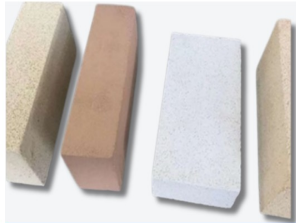

High alumina linings for ladles, offering excellent thermal shock resistance and longevity.

OUR PRODUCTS (2/3)

BOTTOM BLOCK

Durable blocks engineered for base construction in high-temperature equipment.

HIGH ALUMINA INSULATION PRODUCTS

Advanced insulating materials with high alumina composition for efficient thermal control.

FIRECLAY AND HIGH ALUMINA MORTARS

Mortars designed for jointing refractory bricks and blocks in high-heat environments.

FIRECLAY AND HIGH ALUMINA CASTABLES

Castables offering high strength and thermal stability for varied industrial linings.

REFRACTORY CASTABLES

Versatile monolithic materials used for casting heat-resistant linings in furnaces and kilns.

INSULATING CASTABLES AND MORTARS

Lightweight materials for insulating linings with good mechanical strength and low thermal conductivity.

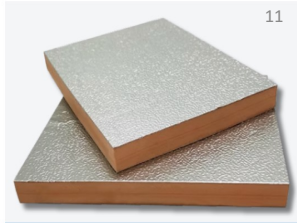

AIR SETTING MORTARS

Ready-to-use mortars that set on exposure to air, suitable for speedy refractory repairs.

HEAT RESISTANCE MORTAR

Mortar capable of withstanding extreme temperatures for structural integrity under fire.

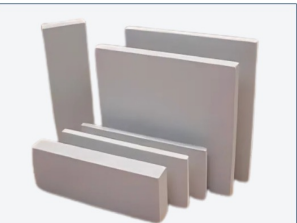

INSULATION BOARD

Rigid boards with high insulation values for lining walls, kilns, and other high-heat zones.

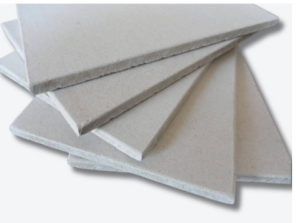

SEALCOAT HT

A high-temperature sealant used for coating and sealing refractory surfaces.

CERVAC BOARDS

High-performance ceramic fiber boards ideal for backup insulation and heat containment.

CALCIUM SILICATE (CALCIL) INSULATION BOARD

Strong, lightweight insulation board used in fireproofing and heat conservation applications.

OUR PRODUCTS (3/3)

MOLDABLE

Flexible refractory material for intricate shapes and tight space applications.

RAMMING MASS

Granular refractory material for lining induction furnaces and other high-heat zones.

S.S. ANCHOR

Stainless steel anchors used for fixing refractory castables and linings securely.

CERAMIC WOOL

Lightweight insulation wool that provides exceptional thermal efficiency in furnaces.

CERAMIC PAPER

Thin, pliable ceramic fiber sheet used in high-temperature gasketing and wrapping.

CERAMIC RIGIDIZER

Liquid hardener applied to ceramic fiber products to enhance surface strength and durability.

S.S DOWEL

Precision metal dowels offering secure mechanical support in refractory systems.

S.S NEEDLE

Reinforcement elements for increasing structural strength of refractory linings.

CERAMIC FIBRE BLANKET

Soft, flexible insulation blanket with excellent thermal resistance and easy installation.

MINERAL WOOL

Efficient thermal and acoustic insulation wool made from natural and recycled materials.

OUR SERVICES (1/2)

80 TPH BILLET RE-HEATING

Installation and lining of high-capacity billet re-heating furnaces for efficient thermal performance.

FURNACE

Comprehensive refractory lining and maintenance for industrial furnaces across applications.

INDUCTION FURNACE

Refractory lining and castable works in induction furnaces to ensure efficient melting operations.

THROTTLE VALVES

Installation and integration of throttle valves to manage industrial heat and gas flow control.

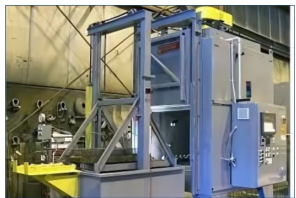

REFRACTORY & FIREPROOFING WORKS

Complete end-to-end refractory lining and fireproofing for industrial safety and performance.

FABRICATION & ERECTION OF LIME KILN AND AUXILIARY EQUIPMENT

Turnkey execution for lime kilns including structural fabrication, erection, and refractory lining.

QUENCHING FURNACE

Specialized brick lining and refractory castable solutions for thermal shock-resistant quenching furnaces.

KILN PIPING & SUPPORTS

Design, fabrication, and installation of robust piping systems for kilns and supporting structures.

DRYER PIPING & SUPPORTS

Efficient setup and alignment of dryer piping with high-heat handling capacity.

REFRACTORY CASTABLE, BRICK LINING IN 80 TPD BILLET RE-HEATING FURNACE

High-quality refractory castable lining designed for operational reliability in billet furnaces.

INSULATION & CLADDING WORK IN 80 TPD BILLET RE-HEATING FURNACE

Thermal insulation and cladding to enhance energy retention and furnace efficiency.

REFRACTORY LINING IN COKE OVEN BATTERIES (58 OVENS)

Complete lining service for high-capacity coke oven batteries, ensuring long-term durability.

OUR SERVICES (2/2)

REFRACTORY WORK FOR BOILER & ACCESSORIES AT POWER PROJECT

Large-scale refractory installations for power boiler systems and associated accessories.

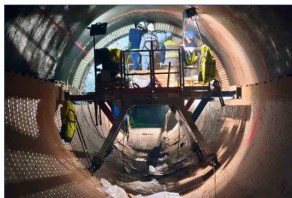

REFRACTORY CASTABLE, BRICK LINING IN BOILER & ACCESSORIES

Heat-resistant brick lining for boilers to withstand extreme combustion conditions.

REFRACTORY CASTABLE, BRICK LINING IN INDUCTION FURNACE

Durable refractory systems customized for induction melting units.

BRICK LINING IN ROTARY KILN & GRATE COOLER (CEMENT PLANT)

Customized refractory services for rotary kilns and grate coolers in cement manufacturing.

REFRACTORY & INSULATION WORK IN TUNNEL KILN & CAR

Thermal lining and insulation for tunnel kilns and kiln cars to improve energy efficiency.

REFRACTORY & INSULATION WORK IN SHUTTLE KILN

Precision lining and insulation for shuttle kilns used in batch-based heating.

REFRACTORY CASTABLE, BRICK LINING IN QUENCHING FURNACE

Specially formulated lining solutions for high-wear zones in quenching units.

REFRACTORY CASTABLE, BRICK LINING IN ELECTRIC ARC FURNACE

Installation of arc furnace linings for optimal heat retention and structural integrity.

REFRACTORY CASTABLE, BRICK LINING IN TUNNEL KILN (CERAMIC PLANT)

Lining for ceramic tunnel kilns to withstand prolonged firing cycles and heat.

HOT INSULATION WORK

High-temperature insulation services for energy conservation and process stability.

REFRACTORY WORK IN GLASS FURNACE

Thermal-resistant refractory lining for continuous and batch glass melting furnaces.

FIREPROOFING WORK

Passive fire protection services using specialized coatings and materials for industrial safety.

Re: Potential Applicator for Isolatek Fireproofing Systems

This is letter is to certify that M/s CMJ Services Pvt. Ltd.
Kolkata - 700016
India

has been identified as a potential applicator for the following Isolatek Fireproofing System:

✓ Isolatek Type M-II

Isolatek operates a global network of Recognized Applicators, all of whom have been instructed in the application techniques of individual products, have been issued with on-site Application Guidelines, and receive regular updates of such guidelines.

In the event that CMJ Services Pvt. Ltd. secure fireproofing contracts for Isolatek products and systems, a complete applicator training shall be provided to their technicians to ensure that the installation shall be completed in accordance with our recognized practices.

Yours Sincerely,

This has reference to your letter Ref. No.: GS-CACSPD0034-KC-L0665 dated 29th March 2015 on the above subject.

KNPC has reviewed the submitted document regarding the materials data sheets for the Refractory works and found acceptable. However, please find below are the KNPC's comments.

1. Test certificates from the manufacturer shall be submitted for the Refractory materials supplied before starting the execution.
2. Please be informed that the sampling and testing procedure of the materials shall be as per Shell DEP44.24.90.31 Gen.
3. Material receiving inspection shall be completed before using the material at site.
4. KNPC's safe work practices shall be followed strictly during execution.

This is for your information and further necessary action.

Attention: **Mr. Anup Kumar Jain - Director**
Subject: **CMJ COMPANY PROFILE**

Dear Sir,

We have reviewed and evaluated your business profile with interest and advise you as follows:-

We have included the details of your Company Profile in our data base, for future requirements.

However, Petrofac generally does not Subcontract the supply and installation of Refractory work directly. We include these services under our construction Subcontracts. (like burn pit refractory work is included in civil package and likewise for mechanical equipment in MEI Package).

Thank you once again for your interest in association with Petrofac.

Regards,

Satender Sharma
